

# LEARN HOW TO MEET CALIFORNIA'S GREEN BUILDING STANDARDS

## Residential and Nonresidential CALGreen Codes

RSVP at [www.energycenter.org/events](http://www.energycenter.org/events)

The City of Chula Vista's **Sustainable Communities Program** invites contractors, developers and property owners to two free workshops on the California Green Building Standards Code (Title 24, Part 11) known as "CALGreen."

Introduced in 2008, CALGreen is the nation's first state-mandated green building code. The 2013 version of CALGreen took effect on Jan. 1, 2014, and is now being enforced. At these workshops, you will learn how the most recent code changes apply to residential and nonresidential structures, including a review of the mandatory measures and voluntary tiers. We'll also provide helpful tools and established strategies for achieving CALGreen compliance.

### Free Workshops

#### Residential CALGreen Code

Wed., July 16, 2014  
12:00 - 1:30 p.m.  
Lunch provided

#### Nonresidential CALGreen Code

Wed., August 27, 2014  
12:00 - 1:30 p.m.  
Lunch provided

City of Chula Vista Building C Lower Level  
Training Rooms B111 and B112  
276 Fourth Avenue, Chula Vista

## Meet the Speakers

### Residential Speaker:

**Lynne Mitschke, LEED AP, Building Design and Construction; CEPE; HERS I and II; BPI**

Lynne has 15 years' experience providing residential architectural support services to architects, homeowners, contractors and engineers. Since 2007, her focus has been on green building, and her company now provides green building design, consultation, Title 24 energy compliance reports, HERS II reports and Build It Green GreenPoint ratings for new and existing single-family and multifamily residential buildings. Lynne also assists the public with green building questions on Thursdays at the City of Chula Vista's Sustainability Desk. Lynne is a graduate of UCSC with additional training in architecture and building codes.

### Nonresidential Speaker:

**Susan Di Giulio, LEED AP, Building Design and Construction; California Registered Architect**

Susan has more than 25 years' experience as an architect with involvement in a wide variety of residential, institutional and commercial projects. She currently works as Sustainability Building Project Manager for Zinner Consultants, providing strategy and client support to meet green building goals, focusing on LEED, CALGreen and municipal green building programs. Susan is a California Registered Architect, LEED AP and Certified Green Building Professional with Build It Green. She earned a master's degree in architecture from UCLA and a bachelor's degree in architectural studies from the University of Massachusetts, Amherst.

The **Sustainable Communities Program** provides resources to stakeholders of the Chula Vista built environment to improve compliance with energy efficiency and green building codes and to promote construction of sustainable buildings. This initiative is part of the City of Chula Vista's Local Government Partnership program, which is funded by California utility customers and administered by San Diego Gas & Electric® under the auspices of the California Public Utilities Commission.
